

Majestic Candy Canes

Designed by: Debby Forshey-Choma

This candy cane design is adaptable to many ornament surfaces or as an addition to a Christmas design.

Materials you'll need:

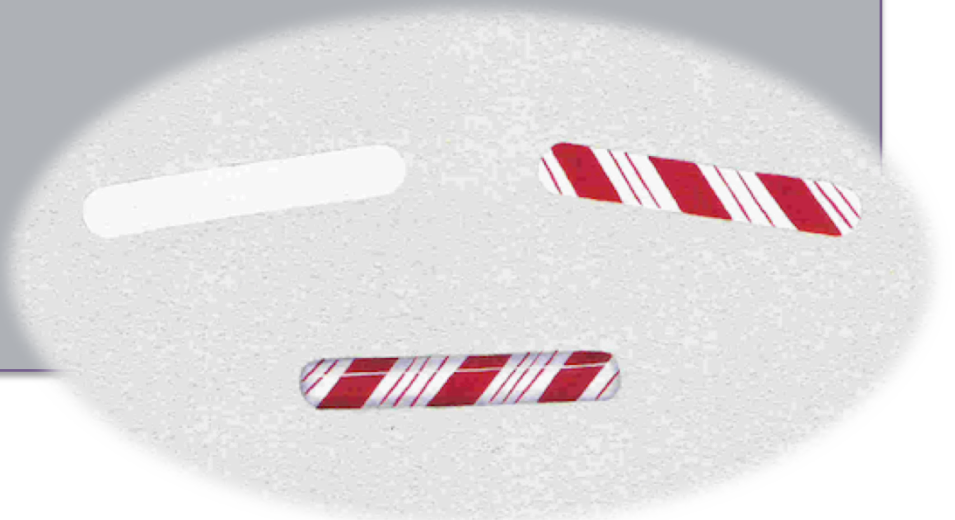

- Desert Cactus 331
- Payne's Grey 167
- Snow White 01
- Santa Red 170
- Hauser Dark Green 133
- #4150 – 4, 6 Majestic shader
- #4160 – 5/8 Majestic angle
- #4170 – 2 Majestic shader
- #4585 – 10/0, 5/0 Majestic liner

Candy Canes:

- Using the 6 shader, basecoat:
 - Candy canes: Snow White
- Transfer the stripe lines.
- With the 2 shader, basecoat:
 - Every other stripe with Santa Red
 - Then, with the 10/0 liner and Santa Red, pull the lines on the white sections.
- Corner load the angle with Payne's Grey, float shading along the outside edges.
- With the 10/0 liner and Snow White, pull the highlight line on each candy cane.

Berries:

- Using the 2 filbert and Santa Red, basecoat the berries.
- Corner load the angle with Payne's Grey, float shading across the bottom left of each berry.
- With Snow White, place a dip dot highlight at the top right (approx. one o'clock) of each berry.

Holly Leaves:

- With the 4 shader and Hauser Dark Green, basecoat the dark leaf.
- With the 4 shader and green mixture (Hauser Dark Green + Desert Cactus 1:1), basecoat the lighter leaves.
- Corner load the angle with Payne's Grey, float shading across the bottom of each leaf and float the vein.
- With the 5/0 liner and Hauser Dark Green, pull the stems and tendrils.
